

M160982 Recyclino lion

The Recyclino lion stands out with its impressive mane, friendly expression and exceptionally soft material. The outer material and filling are made from recycled post-consumer PET bottles, processed into new fibres – approx. 2 bottles (500 ml). Eyes and details are embroidered, and no additional plastic parts are used. With a mini T-shirt, scarf or triangular scarf, the lion can be individually customised and printed with your logo or slogan. A fluffy advertising ambassador that combines strength and sustainability and keeps your company present in everyday life.
